Disk Drive Cleaner

- 60% of all drive downtime is the result of poorly maintained drives.
- Drives should be cleaned each week regardless of use due to sensitivity to smoke, dust and all micro particles.
- Regularly performed maintenance is the best way of ensuring error free use.

This unique twin slot jacket design gives twice as many "wet-dry" cleanings per rotation as other leading brands. Non abrasive, 100% lint free, random fiber cleaners capture disk oxide build up, dust and smoke particles. This will insure you against disk and data loss from dirty disk drive heads. Just like you must clean your tape player, you must clean your disk drive. 24 cleanings per kit. (Shipping same as software.*) List \$19.95 **Sale \$9.95**

Works on Signals Over House Wiring

The X-10 POWERHOUSE interface is programmed through your computer. The easy to follow software allows you to select a room, the appliances or lights within the room and the time to turn them on or off. Then, when you are done, disconnect the interface from the computer and it works on it's own! Your computer is free to compute and the interface continues to send digital signals over existing wiring to the plug-in-modules (sold separately) connected to the appropriate devices.

Many types of modules are available including appliance modules for TVs, stereos, coffee pots, etc. Lamp modules which contain a dimmer and can be used for incandescent lamps up to 300 watts. Wall switch modules which also contain a dimmer and can be used for incandescent outside lights and ceiling lights of up to 500 watts. 222V heavy duty appliance modules for 220V air conditioners and water heaters. The thermostat controller for central heating and air conditioning. The 3 way wall switch for controlling incandescent lights operated by two switches. The heavy duty wall receptacle module to replace your existing wall receptacle, etc.

Plus, works with BSR, GE, Leviton, Radio Shack, and Sears Roebuck modules (all 256 codes addressable).

5 1/4" Double Sided/Double Density Floppy Disks

100% CERTIFICATION TEST

Some floppy disk manufacturers only sample test their disks on a batch basis, and claim they are all certified. Each disk is individually checked so you will never experience data or program loss during your lifetime!

FREE REPLACEMENT LIFETIME WARRANTY

We are so sure of these disks that we give you a free replacement warranty against failure to perform due to faulty materials or workmanship for as long as you own your disks.

AUTOMATIC DUST REMOVER

Just like a record needle, disk drive heads must travel hundreds of miles over disk surfaces. Unlike other floppy disks the smooth surface finish saves disk drive head wear during the life of the disk. (A rough surface will grind your disk drive head like sandpaper). The lint free automatic cleaning liner makes sure dust & dirt are being constantly removed during disk operation.
